Dear Sir:

I am preparing an account of the various Commemorative coins issued by the United States Government - in fact, the account is now in the press. I am including what I know concerning the proposed Hayes Commemorative 50-¢ piece, Senate Bill, 3533, which is now in Committee on Coinage, Weights and Measures of the House.

I would appreciate it very much if I could be kept informed of the progress of this Bill.

Very truly yours,

Curator
